**OVATION AWARDED 2008 GETTHERE LUMINARY AWARD**  
For Second Consecutive Year, Ovation is Honored for  
Unwavering Focus on Customer Support and Satisfaction

New York, February 19, 2008 -- Ovation Travel Group, the 7th largest corporate travel management company in the United States as ranked by Business Travel News, announced today it has been awarded a 2008 GetThere Luminary Award for "Overall Support and Customer Satisfaction".

The Award recognizes that Ovation maximized GetThere system upgrades and tools, and used its expertise in order to develop and implement customized client sites, training and online booking tool consulting for Ovation clients. "Our end-all goal has always been to best customize this product in order to ease the online booking process for our travelers," commented Julie Piro, Director of Online Technologies at Ovation. "By embracing, adapting and expanding on the multiple online options GetThere provides, we were able to take the tool to the next level. Online adoption is up, which confirms that Ovation's customized approach is working for our clients."

In 2007, Ovation increased its online transactions by over 40%.

"We are thrilled to be receiving this award for the second consecutive year," commented Paul Metselaar, Chairman and CEO, Ovation Travel Group. "GetThere is a first-rate product which allows us to customize in order to drive online adoption, growth, and innovation in meeting the needs of our clients. Flexibility is key to Ovation's high-touch business model and GetThere consistently allows us to accommodate our clients' diverse requests."

In the past months Ovation has implemented GetThere's GroundRez service, which gives the user the ability to book black cars, sedans, limousines and even taxis in cities across North America and Europe to supplement online travel programs. Additionally, Ovation has incorporated dynamic messaging into its clients' customized travel sites, which allows Ovation to set up individualized, custom messages which appear noticeably on the client's GetThere pages.
